Product	Heavy Duty Guardrail
Application	Conveyor perimeter protection

Install a Cogan heavy-duty guardrail system and create a protective shield between your workers and your equipment. It's the trouble-free solution to your peace of mind. Built from the best quality materials, our guardrails are strong, adaptable and — when properly installed — engineered to withstand a 10,000-lb impact at 4 mph. That means the equipment installed on your shop floor will be protected from traffic accidents and other hazards.

Increase safety and productivity with Cogan heavy-duty guardrails. 24/7 protection where you need it, when you need it – all part of our lifetime structural warranty.
