Structural Steel Cantilever Rack

Application

Metal tube and piping products storage

Take the headache out of storing long or awkwardly-shaped items with a Cogan Cantilever Rack System. Designed for outstanding versatility, our cantilever racks use a special arm system that allows for easy front loading without any obstruction. From tubing to piping, any application that requires extra-wide front loading sections is an ideal situation for our cantilever racks.

Structural steel components provide superior strength and durability, while the powder-coated finished makes our cantilever racking the perfect candidate for indoor and outdoor use.

 **Cogan** A Tradition of Quality Since 1901.
